

## POSTGAME QUOTES - K-STATE HEAD COACH

K-State 12, Baylor 31 | October 5, 2019

### **CHRIS KLIEMAN, K-STATE HEAD COACH**

#### *On today's performance*

"People are running against us. I thought early on they were blitzing the heck out of us and we did a really good job, Skylar did a good job of checking off to a lot of quick throws and quick hitches and those were good. Then they kept the blitzes on but they rolled their coverage which took a few things away. We have a really good plan for the three down. We have to execute the plan and we have to continue to get better at."

#### *On the amount of tackles for loss by Baylor...*

"Some of those were obviously late, we were trying to make plays but we can't have those. We had a third and one coming right out of the second half, it was a one score game, they stuff us and they go down and score. We had moved the ball and then we get a third and one and then lose two. We have to be able to sustain those drives."

#### *On low confidence after two straight losses...*

"That's human nature but that's our jobs as coaches, to get them back and the jobs of seniors. We are all accountable. We all have to be better and it starts with me and I've got to be better and make sure to push the right buttons. The seniors have to be better, everybody's got to get invested a little bit more so that we can get this thing turned. Once again, we are going to get this thing turned, we're 3-2, we have a bye week probably not at a great time but we have the bye week so we have to utilize it and get better."

#### *On the offensive line disappointments...*

"Well we saw it a little bit better today, we can't put it all on those guys. Those guys are playing their butts off. We've just got to continue to improve and give them some better options maybe in whatever it is offensively, play calling and those things and I'm not questioning the playcalling don't start that with Mess[ingham]. We just have to find some ways that they can find some confidence. I thought in the second half we had some confidence running the football, once again we just couldn't sustain it."

#### *On getting Joshua Youngblood involved...*

"I thought he did a really good job. We got Josh (Youngblood) involved, we got Joe Ervin involved, we got Chris Herron involved. We're trying to find a few more playmakers. Those guys made some plays, probably made some mistakes but they're making them fast. Good chance in the open week to find some guys that get us some production."
