## TEAM NOTES

### FALCONS AMONG ELITE ACADEMICALLY

The Air Force football team has established itself among the nation's elite academically. The Falcons ranked fifth nationally in Academic Progress Rate (APR) in 2021 with a score with a 994, according to the NCAA's latest multiyear NCAA Division I scores. This season marks the 10th straight year in the top 10. Air Force led the nation in 2019 with a 997 and was second in 2018 with a 993.

The NCAA announcement is part of the overall Division I academic reform effort and is intended to highlight teams that demonstrate a commitment to academic progress and retention of student-athletes by achieving the top APRs within their respective sports. The APR provides a real-time look at a team's academic success each semester by tracking the academic progress of each student-athlete on scholarship (recruited and on varsity roster for non-scholarship schools). The APR accounts for eligibility, retention and graduation and provides a measure of each team's academic performance.

## AIR FORCE ACADEMY 101

### The Cadet Wing

- To prepare cadets for the life of an officer, the Cadet Wing at the U.S. Air Force Academy simulates the organization of an operational Air Force wing.
- Cadets are responsible for running and operating the wing, which affords them the opportunity to learn how to use a chain of command, how to function as part of various military formations and how military units organize to accomplish collective tasks.
- The wing is led by the Cadet Wing Commander who is the highest-ranking, first-class cadet.
- Within the Cadet Wing, first-class (senior) cadets hold the positions of cadet officers, second-class (junior) cadets act as the cadet non-commissioned officers and third-class (sophomore) cadets represent the cadet junior non-commissioned officers. Fourth-class cadets act as followers and function as cadet Airmen.

### Cadet Squadrons

- The 4,000+ cadets who comprise the Cadet Wing are divided into four groups of 10 squadrons each. Cadets live, eat and take part in military training with their squadrons, which are comprised of roughly even numbers of cadets from all four class years. The squadron is the “home” or “family” for the cadets. Cadets typically forge very close bonds with their squadron-mates.
- When the first class entered the academy in the summer of 1955, they were divided into four squadrons. In the years following, the number of squadrons gradually increased at an average of four to eight per year. By 1970, the size in the cadet wing reached its peak of 40 squadrons. The number of squadrons dipped from 40 to 36 in 1999 but returned to its current strength of 40 squadrons in 2006.
- Air Officers Commanding (AOC) supervise cadets and are located within each group and squadron. These Air Force officers oversee all cadet activities, provide instruction and serve as role models as the cadets experience firsthand the processes of command and organization to accomplish the mission. Academy Military Trainer (AMT) NCOs complement the AOCs and provide an enlisted role model perspective.
- Squadron patches were designed in the early 1960s.

- Air Force set a record for the best three-year run from 2014-16 with a 17-1 record, breaking the mark of 15-2 from 1983-85.
- The Falcons have finished undefeated at home six times overall in school history, four coming under Calhoun.

#### THE DIESEL SEMIFINALIST FOR JOE MOORE AWARD

The Air Force offensive line, known as the Diesel, has been named one of nine semifinalists for the Joe Moore Award for the second straight season. The award goes to the top offensive line in the nation. The Falcons are the lone Group of 5 team on the list. The nine semifinalists include (in alphabetical order): Air Force, Georgia, Illinois, Michigan, Mississippi, Oregon, Tennessee, UCLA, and USC.

- The Air Force offensive line has taken on a new identity the last few years. The group calls itself the Diesel, which represents an attitude of toughness and a willingness to block regardless of position. The players purchase hats with a diesel pump handle on it and hands them out to the members of the line. The linemen also hand them out a select few position players that they feel shares their attitude.
- The Diesel has powered the Air Force rushing attack to back-to-back national rushing titles in 2020-21. Last season, the group became the first FBS non-power five unit to be a finalist for the Joe Moore Award as the nation's top offensive line.
- The Diesel has paved the way for the Falcons to lead the nation in rushing with a 330.9 average. The Diesel has allowed 1.0 sacks per game which leads the MW and ranks 11th nationally. The Falcons lead the nation time of possession with a 36:16 mark.
- The Diesel was impressive in the season opener vs. Northern Iowa, paving the way to 691 total yards and 582 yards on the ground. Air Force's 691 yards of total offense are the fourth most in school history and the most since a school record 792 against Tennessee State in 2011. Air Force's 582 rushing yards are the sixth most in school history and the most since rushing for 595 vs. Tennessee State in 2011.

### AIR FORCE TO HONOR U.S. SPACE FORCE WITH APLS SERIES IN 2022

The Air Force football team is honoring the U.S. Space Force with the 2022 edition of the Air Power Legacy Series uniform. The Falcons wore the uniform for the Navy game in Falcon Stadium on Oct. 1 and again for the New Mexico game in honor of Veteran's Day.

The helmet features the lightning bolt with a shared image between the U.S. Air Force and U.S. Space Force, representing dominance, quick strike and precision. The helmet base is gradient representing coming into the light. The roman numerals MMXIX (2019) represent the year the Space Force was created. Rear bumpers for each helmet have one of four slogans: Courage, Commitment, Connection, Character.

The jersey features U.S. Space Force base patches on the left shoulder and a tonal United States flag on the right sleeve. The player name plate appears on the front and is opposite the swoosh on the right chest. The unit patches feature Space Base Delta 1 headquartered at Peterson Space Force Base and Space Base Delta 2 headquartered at Buckley Space Force Bases. Fusing together the official mark of the Air Force Academy, the AF, with the Polaris star and orbit appears at the center neck, showing the connection between the U.S. Air Force and U.S. Space Force. The back name plate has Semper Supra, the Space Force motto, meaning Always Above.

The U.S. Air Force Academy is the U.S. Space Force's academy, and commissions around 96 Guardians into the Space Force each year. The Academy has always been the place for space, housing one of the only undergraduate programs in the nation to design, develop and fly real-world satellites, and offering three space-focused majors. In Summer 2022, the Academy hosted Azimuth, a two-week program to introduce cadets to operations in the space domain modeled after NASA's two-year Astronaut Training Program.

### AIR POWER LEGACY SERIES HISTORY

- The Air Power Legacy Series began in the **2016** season with the football team wearing an alternate uniform to celebrate the Tiger Shark teeth nose-art which has been represented on multiple Air Force aircraft dating back to World War II. During the WWII era, fighter plane pilots were called "Flying Tigers" and were part of the U.S. Army Air Corps, which later became the Air Force. The helmets worn for the game featured a shark-teeth design like those painted on the aircraft.
- While 2016 focused on the past, the Falcons honored the present, and future, of air power in **2017** with the F-35 theme. The F-35 completed its first flight in 2006. In 2012, the F-35 program increased to 30 aircraft. In 2016, the F-35A was declared combat ready by Gen. Hawk Carlisle, class of 1978, the commander of the Air Combat Command. The helmet had five different designs. On one side of every helmet will be the familiar Air Force logo often seen on aircraft, which includes the length-wise bars intersecting the roundel. On the other side was a decal representing one of the five Air Force F-35-A operational fighter squadrons in the Air Force.
- The team honored the AC-130 in **2018**. The helmet featured the AC-130 on one side, plus squadron patches on the other. The AC-130 gunship is a heavily armed, long-endurance ground-attack variant of the C-130 Hercules transport fixed-wing aircraft. It carries a wide array of anti-ground oriented weapons that are integrated with sophisticated sensors, navigation, and fire-control systems. Unlike other military fixed-wing aircraft, the AC-130 relies on visual targeting. Because its large profile and low operating altitudes (around 7,000 ft) make it an easy target, it usually flies close air support missions at night.
- Air Force honored the C-17, a large military transport in **2019**. The C-17 commonly performs tactical and strategic airlift missions, transporting troops and cargo throughout the world; additional roles include medical evacuation and airdrop duties. The C-17 is designed to operate from runways as short as 3,500 ft (1,100 m) and as narrow as 90 ft (27 m).
- The Falcons honored the Tuskegee Airmen with the **2020** edition. The uniform was gray with black lettering. The chrome base gray helmet featured the P-51 aircraft flown by the Tuskegee Airmen in combat with signature red tails and nose that helped identify the group. The helmet featured the four squadron emblems for the 99th, 100th, 301st and 302nd fighter squadrons. The pants featured an authentic stenciled information graphic on the side. The custom nameplate on the jersey said Red Tails, inspired by hand-lettered names painted on the side of the P-51 aircraft.
- The **2021** edition honored the B-52 Stratofortress. The helmet was designed after the B-52 that flew in Operation Linebacker II. The Strategic Air Command adored the right check of the uniform while the name plate used the orange outline with airport codes for Anderson AFB, U Tapo and the 7th Bomber Wing patch to represent all former B-52 units. The left pant leg featured 11 B-52 plane silhouettes representing the 11 days of bombing during the conflict. The right side pant leg had the tail flash of the plane and the number on each player's pant leg matches their uniform number for the first time in the history of the series.

## FALCON STADIUM MODERNIZATION PLAN

### FALCON STADIUM TURNS 60

Falcon Stadium celebrates 60 years during the 2022 season. Situated at 6,621 feet above sea level at the base of the Rampart Range of the Rocky Mountains, the donor-funded stadium opened in 1962 as the home of the Falcons. Eight U.S. presidents, starting with John F. Kennedy, has delivered graduation addresses there.

Since its opening, Falcon Stadium has undergone several significant upgrades. In 1991, the Academy installed skyboxes and remodeled the press box. Renovations in the 1990s and 2000s to improve the fan experience increased food and beverage vendors and the additional space brought its capacity to the current 46,692 (down from 52,480). Permanent lights were installed in 2002. Going into the 2016 season, new scoreboards were installed, then in 2018 the turf was replaced and the home locker room renovated. Private contributions funded most of these improvements. The next phase of renovations are on tap following the 2022 season with the goal of transforming the facility into a state-of-the-art, world-class venue.

The Air Force Academy Foundation and the Air Force Academy Athletic Corporation have announced a proposed multiphase Falcon Stadium renovation project as part of the Defining Our Future campaign in support of the Air Force Academy, publicly launched on Sept. 10, 2021. Defining Our Future is a comprehensive campaign, the most significant in Academy history, with the Falcon Stadium modernization as a key component.

The investment required for the initial phase of the Falcon Stadium modernization is \$90 million, with philanthropic support from the Air Force Academy Foundation providing \$35 million as part of the campaign and the remaining half financed by Air Force Academy Athletic Corporation revenue. The current phase is part of a multiphase master plan to upgrade and transform Falcon Stadium into a world-class venue and will total about \$180 million when finished.

With most of the initial upgrades coming on the east side of the stadium, the proposed plans include a dramatic new stadium entrance, an updated event space, relocation of the cadet section and a heritage plaza. Improved seating, concessions areas, restrooms and merchandise space will offer fans a more modern and comfortable feel as they take in an event.

### Superintendent's VIP Suite receiving comprehensive renovation

The existing Superintendent's VIP Suite at Falcon Stadium (approximately 1,200 SF) is receiving a comprehensive renovation. It is visually and aesthetically outdated, does not meet accessibility standards, does not have adequate seating, its heating / cooling systems are at the end of their life span, among other deficiencies. The Superintendent's VIP Suite needs to visually reinforce USAFA's mission and brand as the premier academic and training institution for the U.S. Air Force while also following the standards and examples of other National Collegiate Athletic Association (NCAA) Division 1 athletic facility Distinguished Visitor suites around the nation. Furthermore, the long range USAFA strategic plans include upgrading many areas of Falcon stadium along with adding new facilities to bring the stadium to a state-of-the-art facility. This project scope aligns with these planned facility upgrades as well as directly supporting and enabling USAFA

Outreach efforts and the overall visitor experience. This project is expected to span eight months of construction with the newly renovated suite ready to host guests for the 2023 football season.

## HEAD COACH TROY CALHOUN

Troy Calhoun is in his 16th season in 2022 as head coach at Air Force, where he has a 120-78 overall record and a 72-51 mark in Mountain West play. He has led Air Force to 12 bowl games, including a school-record six straight from 2007-12.

Calhoun, who won his 100th game during the 2020 season, has led the program to an 11-win season (2019), three 10-plus win seasons (2014, 2016, 2021), **four** nine-win seasons (2007, 2010, 2021, 2022) and three with eight wins (2008, 2009 and 2015). He has led the Falcons to the Commander-in-Chief's Trophy five times, including this season. Calhoun led the Falcons to an 8-6 overall record in 2015 and the Mountain Division championship and first-ever MW title game appearance. The 2019 Falcons posted an 11-2 overall record, the third-most wins in program history, and finished second in the MW Mountain Division with a school-record-tying 7-1 record.

Calhoun is the only coach in the 100-plus year history of service academy football to lead teams to at least seven wins and a bowl game in each of his first five seasons. Calhoun has been a semifinalist for the National Coach of the Year award three times (2007, 2010, 2019). Calhoun came to his alma mater in 2007 and took over a program that had three straight losing seasons. Air Force finished the 2007 season 9-4 overall and placed second in the Mountain West Conference with a 6-2 mark in Calhoun's first year. The Falcons earned their first bowl bid in five seasons, advancing to the Bell Helicopter Armed Forces Bowl in Fort Worth, Texas. The five-game turnaround from the previous season was the largest in the nation by a first-year head coach and tied as the third largest overall in the nation.

Calhoun was named the conference's coach of the year for his efforts. In addition, he was named coach of the year in Region 5 by the American Football Coaches Association and was one of eight finalists for national coach of the year honors.

Calhoun brought a wealth of experience and impressive resume at the collegiate and professional levels that is flooded with success at every stop to the Academy. Calhoun came to the Academy after serving as offensive coordinator and quarterbacks coach for the Houston Texans in 2006. The Texans were one of only two NFL teams to triple their number of wins from the previous year.

Calhoun became a well-rounded NFL coach, working as a defensive assistant, special teams assistant and offensive assistant with the Denver Broncos from 2003-05. He began his NFL coaching career by serving as the defensive assistant under defensive coordinator Larry Coyer in 2003.

Prior to the NFL, Calhoun was an offensive coordinator for six seasons on the collegiate level. He began his coaching career at Air Force, where he worked as a graduate assistant from 1989-90. He started at quarterback for the Academy in 1986 and was one of only two freshmen to letter for the 1985 team that finished fifth in the final polls with a 12-1 record that included wins over national powers Notre Dame and Texas.

Calhoun served his country from 1989-95 as an active-duty officer in the Air Force. He was the Falcons' recruiting coordinator and the junior varsity offensive coordinator in 1993-94. He moved to Ohio University in 1995 where he served as the quarterbacks coach for two seasons. Calhoun was promoted to offensive coordinator in 1997. Calhoun moved to Wake Forest in 2001 and remained there prior to his stint with the Broncos.

Groomed on the basics of integrity and passion, Calhoun is a native of Roseburg, Ore., and was raised in a home where both kids graduated from the Air Force Academy and were varsity letter winners on nationally ranked teams. He and his wife, Amanda, live in Colorado Springs and have two children, Tyler (20) and Amelia (18).
