

BAYLOR HEAD COACH KIM MULKEY

On the freshmen/playing everyone/quick turnaround...

"It was good to see us play the way we did today. It allowed us to play everyone and everyone should feel confident about themselves. It also allowed us to rest players for the game of against Texas on Monday. The crowd was outstanding. It is fun as a coach to watch everyone play and everyone do something good."

On the Lady Bears' defense and offense...

"Let me talk about the defense today. She [Moon] set the tone for this basketball team today, both offense and defense. She was assigned Carr and I think it was a career low for her. Moon just assaulted her all day. Kudos to Moon. Her opportunity came and she took advantage of it. Now Juicy will get well really soon now."

On maintaining the lead...

"I challenged them this time to maintain the lead. I told them this in the timeout, I don't care what the score is, I'm watching you and the value that you are to your basketball team. That's why I got on the official. They called five fouls in forty-one seconds, I told them I don't coach the scoreboard, I coach the team and individual. I think they responded. I looked out on the floor and we had five freshmen and they had juniors and seniors out there and that made me proud as a coach. We did positive things out there."

BAYLOR FRESHMAN MOON URSIN

On how much fun she had today...

"I had a lot of fun today. It was definitely a confidence booster for me, and my teammates were just encouraging the whole time. Everyone was on today, which is always a good thing."

On her defense...

"It definitely helped us to be able to defend, and it showed me how much confidence the coaches have in me. I want to be able to impress them and that I can do it. Guarding her [Carr] is one play at a time, and not having the ball in her hands is good for us."

BAYLOR FRESHMAN NALYSSA SMITH

On the fourth quarter...

"It was my teammates. Seeing them score the ball motivated my talent. We did not want to lose the lead we had. It made me want to score more."

On the Lady Bears' Fierce Five all on the floor at the same time...

"It was super fun. It's rare when that happens so when it does happen and how excited everyone was and the crowd, to see everyone on the bench proud of us makes me feel proud of our teammates."

TEXAS TECH HEAD COACH MARLENE STOLLINGS

On the difference in today's game...

"Well a lot of things. They're extremely talented. They're strong, they're tall, they're athletic. Their ceiling was a lot higher than ours from our game in Lubbock. Credit to them, they're continuing to progress and advance. That's what you do when you're number one in the nation. From seeing them about a month ago to now, they've really stepped it up a notch. They're representing our conference in a fine fashion. It's good for everybody that they're sitting at number one."

On Moon Ursin's defense guarding Chrislyn Carr...

"I thought she was really solid to start the game. Forced us into turnovers, made it hard for us to get into our offense. I definitely thought that she set the tone early for them from a defensive standpoint."

On Kalani Brown's performance...

"You can't let her get position deep. They had 66 points in the paint. We didn't get around and the ball got in there deep. She posts really well, she knows how to use her body. She just got way too deep at the basket. She's not going to miss and we know that. And then she goes 5-for-5 at the free throw line and that speaks to the versatility that she brings for them."
