

## BAYLOR POSTGAME QUOTES

### **Baylor Head Coach Scott Drew**

#### ***Opening Statement...***

“Well, coaches are always worried about something and how we respond, come out and play, and again I think that’s the strength of our team. We showed up, we played, we competed and there was no mental lapse or letdown after our last home game. So, you can’t argue with five guys in double figures, 16-18 from the free-throw line, 13 threes, so a lot of positives there. Defensively, we were really good except for the last five minutes. We reemphasized the importance of the game, and most importantly I think the players, as they went out, knew we want to get out to a good start.”

#### ***On everyone getting involved tonight...***

“Wins are good no matter how you get them, but if everyone played well and is shooting well then that definitely does help. I mean 19 assists, that’s tremendous.”

#### ***On how MaCio Teague played...***

“I thought he really did a great job. The Kansas game was tough because he had a one-day practice and was very limited and each and every day, from here on out, he should get better and better back closer to his form.”

### **Baylor Sophomore Davion Mitchell**

#### ***On his relaxed nature...***

“I think after the Kansas game everybody was worried we were going to have a bad game because every time after Kansas, people play bad. But we took that game, put it behind us and we went 0-0.”

#### ***On his energy on defense...***

“I think every night we pride ourselves on our defensive side. I think tonight we were really good keeping it on the side and putting pressure on their guards.”

#### ***On the win...***

“I think we take every team the same. I think every game we go in the mindset of ‘this team is good no matter their record,’ so I think we take every game seriously.”

### **Baylor Sophomore Matthew Mayer**

#### ***On how everybody played tonight...***

“We were just hitting our shots, getting on the paint. Yeah, Davion (Mitchell) was finding everybody, so it made it a lot easier for us. I think we had like 20 assists, so everybody was doing a good job finding everybody.”
